EUROPEAN WAR HAS MADE DELAYS DANGEROUS

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 22.—Cross-examination of John E Oldham, who spoke for the Investment Bankers' Association, at the Interstate commerce commission hearing today on the application of the eastern railroads, for higher freight rates, developed testimony that the rate of interest on fixed charges of the railroads had dropped during 1913 to 4.44 from an average of 4.80 for years preceding, and that the average dividend rate for 1913 was 6.48 as against a ten-year average of 5.43. In examination of figures presented by Mr Oldham, Louis D. Brandeis, the commission's counsel, drew the conclusion that the amount of capital required by the roads to earn a dollar on a year's operation had decreased during 1913. Mr Oldham insisted, however, that the falling interest charge did not indicate the roads had borrowed money at a lower rate.

Under examination by Clifford Thorne, counsel for several shippers' organizations, it was developed that the decline in net income of the railroads had been fractional and that the roads had been maintained at a higher level during 1913 than during previous years. Mr Oldham agreed that would seem to indicate the roads were making larger net revenues. He contended, however, that they should have the increase without delay. He said that while bankers were in complete accord with the commission's suggestion in the previous rate decision, that by more careful management and reforms the road could increase their revenues, the European war had brought about dire conditions which made it "dangerous" to await the working out of such reforms.

Congress to Adjourn Tonight After Passing War Tax Bill; Expect No Cotton Relief Law

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 22.—Adjournment of congress tonight virtually was assured today for a result of the action of the conferees of the two houses in reaching a final agreement on the war revenue bill. Leaders in congress had determined to press for speedy adoption of the conference report in both houses today with a view to bringing the session to a close.

The conference report was ready for presentation when the house met at 10 o'clock today. The program called for its consideration in the senate following action by the house.

Under the agreement, amendments proposed by the senate to increase the tax on beer from \$1.50 to \$1.75 a barrel and imposing a levy of 5 cents a gallon on rectified spirits were eliminated. Failure to substitute in lieu of these amendments by representative Underwood's proposal to restore the tax of 2 cents a gallon on gasoline as contained in the house bill will reduce the amount of revenue estimated under the senate bill of \$105,000,000 to \$90,000,000.

New York, Oct. 22.—An attempt to assassinate Richard C. COX INVITED AS RAJAH'S GUEST AT FOOTBALL GAME.

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Oct. 22.—Gov. Samuel M. Ralston today invited Governor James M. Cox of Ohio to be his guest for the Indiana-Ohio football game to be played here on Nov. 7. The two executives will copy an especially built line on the side lines and precede the game they will head in street parade.

The Greatest Thing In the Greatest War.

This is the first photograph of the entire siege gun with which the German army has reduced the forts at Liege, Namur, Mauberge, and Antwerp and which it is now believed to be moving to the north. The gun and carriage are made up of two parts, as will be seen from the photograph. The middle carriage on enormous iron wheels is here shown in place on a cement foundation, and the gun is backed against it for support. The forward automobile is the powerful machine necessary to transport the gun.

This is one of the two siege guns which battered the fortifications at Antwerp within three days after they began work. While the Belfort fortifications are said to be the strongest in the world, military experts do not believe they will hold out against the attacks of such a gun, unless relief comes from the French army.

One American Steamer Released By British at Demand of the U. S. But No Word Concerning Two Others

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 22.—Sir Cecil Spring Rice, the British ambassador was informed today by the London foreign office that the American tank steamer John D. Rockefeller, seized by British cruisers, had been released.

The ambassador received no word concerning the other American ships, the Brindilla and Platuri. His advice were communicated at once to the White House and that was taken in official circles as an indication of personal interest President Wilson stated that the Brindilla also was plying between neutral ports—New York and Alexandria, Egypt, and he was satisfied that even though there had been a change in registry from German to American, the ownership was continuously American. Officials here believe Great Britain regards that oil as covered in the general prohibition as "fuel" and is contraband.

The Rockefeller, like the Brindilla and the other two ships carried illuminating oil which Great Britain is understood to have declared contraband. She was seized and taken to islands off the coast of Scotland.

The Ambassador's advice were that the Rockefeller's cargo was consigned merely "to order" at Copenhagen and that the British cruisers

which took her had difficulty in establishing its destination.

Acting Secretary Lansing of the state department announced today that the United States had protested the seizure of the Brindilla now at Halifax, N. S., as unjustifiable and demanding her immediate release.

Secretary Lansing said the American protest made through Ambassador Page, was similar to that lodged in a protest against the seizure of the John D. Rockefeller, bound from Philadelphia to Copenhagen.

He stated that the Brindilla also was

plying between neutral ports—New

York and Alexandria, Egypt, and he

was satisfied that even though there

had been a change in registry from

was continuously American. Officials

here believe Great Britain regards

prohibition as "fuel" and is con-

traband.

Sir Cecil Spring Rice, the British ambassador conferred with Mr. Lansing concerning various seizures of the oil ships. Mr. Lansing said later the American consul at Halifax had experienced some difficulty in interviewing the captain of the Brindilla to obtain facts of her seizure, but that the British ambassador had promptly adjusted the incident.

The Brindilla, like the Brindilla and the other two ships carried illuminating oil which Great Britain

is understood to have declared con-

traband. She was seized and taken to islands off the coast of Scotland.

The Ambassador's advice were that

the Rockefeller's cargo was consigned

merely "to order" at Copenhagen and that the British cruisers

cision, that by more careful man-

agement and reforms the road could

London, Oct. 22.—One of those who make up the allied armies in the fighting zone in the neighborhood of the Belgian border is quoted as having said yesterday:

"We shall most certainly be in Brussels under a month. I, myself, expect, in a fortnight."

This probably represents the impression obtaining here even though in the mass of vague assertions regarding the progress of the fighting on the vast line from the North Sea to the Rhine there is to be found little of a positive character or demonstrable proof of any

BREAKS A COLD, OPENS CLOGGED HEAD AND NOSE

Relief comes instantly. A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, tiredness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Papa's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

CONGRESS

(Continued from Page 1.) The war revenue bill. The senate was ready to follow action of the house.

When the conference report was finally brought in by Majority Leader Underwood one hour was allowed for discussion. The reduction of the senate tax on beer and elimination of the 5 cents a gallon tax on rectified spirits removed practically all opposition.

The final agreement on the bill was reported by a strict party vote, Republicans voting against it. The conference restored the house provisions that the new taxes should go into effect the day after passage of the bill.

The conference report went over to the senate and the house took up the cotton warehouse bill. Representative Henry of Texas produced a letter from President Wilson expressing the hope that congress would pass the bill before adjournment. While Leader Underwood attempted to get up the adjournment resolutions, Mr. Henry forced roll calls and began a mild filibuster to force action on the warehouse bill.

When the report arrived in the senate, Senator Smith of Georgia, held it temporarily while he presented a resolution for a senatorial commission to investigate the cotton export situation.

The senate promptly adopted Senator Smith's resolution and proceeded to the conference report on the war revenue bill.

Meanwhile in the house Representative Henry's filibuster was productive of an agreement to take up the cotton warehouse bill, provided a special rule under which amendments to the bank law are being considered could be disposed of.

In the House a parliamentary wrangle ended by the passage of the customary resolution to notify the president that congress was ready to adjourn and the passage of the adjournment resolution itself. The currency and cotton questions were open for discussion up to the hour of adjournment.

MRS. CARMAN'S

tion downstairs," he said. This was the first definite declaration from the defense that she was to testify.

"She immediately put on a kimono and leaned over the banisters. She did not go into the office because Dr. Carman had forbidden her to do so."

"She will admit all about the telephone instrument, and will tell us if the things she had heard about the doctor's relations with women were true. We will show you that there can be no suspicion attached to Mrs. Carman's talks with me, because I was a friend of the family and had been for years."

"As to this witness Farrell, we will prove him a liar."

A vigorous assault upon the testimony given yesterday by Celia Coleman, the Carman maid, was begun by the defense with its first witness, Benedict Cheeseman, a negro stenographer of New York.

Cheeseman testified that he and two negro lawyers called on Celia Coleman in New York on July 14, last, and that the lawyers questioned Celia about her knowledge of the crime while he took down questions and answers in shorthand. He identified a typewritten statement as the one she had made.

In it Celia said she wanted to tell the whole truth. She was not under oath, however, and she made no mention of Mrs. Carman having shown her a revolver.

The court stenographer read in a monotone the long statement taken down by Cheeseman and alleged to have been made by Celia. As he did so, the jurors leaned back in their chairs and several closed their eyes. Recess for luncheon was taken at 12:30 o'clock with Cheeseman still on the stand.

RUSSIANS

REPORT GREAT SUCCESSES IN DIRECT CONQUEST OF VIENNA OFFICIAL REPORT

Siberian Troops Specially Mentioned For Bravery and Efficiency in the Fighting.

(Associated Press Telegram) Petrograd, Oct. 22.—The official news bureau, in a statement reviewing the fighting around Warsaw says:

"The Russian troops displayed exceptional energy in coming to the defense of Warsaw and saving the city from a German bombardment. The Russian concentration was effected with greater swiftness than was called for by strategical reasons. Documents taken from prisoners who were captured during the fighting near Warsaw show that the Germans were confident of entering that city between the fifteenth and seventeenth of October.

"The Siberian regiments arriving at Warsaw were immediately sent to the front, but not before they were warmly hailed by the population which was greatly impressed by the martial appearance of these young soldiers. During their bayonet charges at night, in the forest of Motchidlofsky, the Siberian soldiers took many prisoners belonging to the 21st German corps.

"The 17th German corps and some of their reserve troops, who attempted to push forward in the region between Blonie and Prouskoff suffered severely. It was there that the Siberian troops, together with other Russian forces, inflicted terrible losses on the enemy. Many villages in the vicinity were taken and retaken in hand to hand fighting.

"In engagements near Kozienica the Caucasian regiments also gave proof of extraordinary courage. For eight days these regiments were fighting on the left bank of the Vistula, in the marshes, where the trenches were constantly under water. Here they sustained the fire of the enemy's heavy artillery but all the German attacks were repulsed.

"Several regiments suffered losses and one regiment had three commanders seriously wounded, one after the other.

"The direction of the great battle going on to the south of Przemysl, which has been under way for six days, is in the hands of General Broussiloff. The Austrian losses have been enormous. Many prisoners have been taken including both Austrians and Germans."

MEAT EATERS HAVE URIC ACID IN THEIR BLOOD

Evaporated Mineral Water Is Safest Way To Drive Out Uric Acid.

People who eat meat regularly cannot expect to avoid the evil effects of Uric Acid which meat produces in the system unless they frequently flush the kidneys and bowels and stimulate the liver to action. Rheumatism, Gout, Backache, Bladder Trouble, Highly Colored Urine, Constipation, Heartburn, SICK Headache, Pimples, all of these come from clogged Kidneys and Torpid Liver, caused by too much meat and heavy foods, which fill the blood with Uric Acid, weaken the kidneys and accumulate fat. Get a quarter's worth of evaporated mineral water in powder form and take two teaspoonsfuls of this powder in a glass of water, two or three times a week, just after you get up in the morning. It stimulates the liver and kidneys to action and carries off all poisonous matter by flushing the intestines and kidneys, which otherwise is absorbed by the blood and produces Headache, Dizziness, Sallow Complexion, Pimples, etc. Frank D. Hall, druggist, will know what you want if you ask for three ounces of Lax-Uric, as this is the same as evaporated mineral water.

GUNS

(Continued from Page 1.) are marching direct to Courtrai rather than join their comrades to the north who are in danger of being cut off.

The evacuation of Ostend was not confirmed this morning, but from Berlin itself came a report that the guns of the war vessels had destroyed the village of Slype, on the canal between Ostend and Bruzus, where it is said the Germans have their headquarters. At Slype, only a few miles northeast of Slype, in 1340, the British fleet achieved a victory over the French.

It is clear now that ships have been playing an important part in the warfare along the coast. The admiralty officially announces that the monitors Severn, Humber and Mersey met only bombarded the German position south of Ostend, but landed detachments of marines with machine guns. It is reported from other sources that eleven war vessels in all are taking part in the operations, but what they are is not announced.

Curiously enough, the monitors retain that title from Lincoln's "Cobham Box" of civil war fame, and so far apparently they have been able to dodge submarine attacks, though as reported on Tuesday at least twelve torpedoes were discharged at them without one finding its mark. How the German submarines get to Ostend is unknown, but presumably they cross down the Dutch coast. When once sighted by a British patrol they submerge and then pierce their way carefully through the British mine field.

With the fighting along the Belgian coast, hardly more than 70 miles from Dover, that area of hostilities necessarily holds chief interest with the British public, though, according to last night's Paris official communication there were violent actions here and there along more than a frontier extending almost due north and south from Nieuport to Lille.

Everywhere the allies claimed to be holding their positions. Interventions for the German right have been spoken of daily since Ostend was taken, and today comes a report that Austrian forces were being transferred from the Italian frontier for this purpose.

BANDIT AND OFFICER ARE BOTH DEAD

(Associated Press Telegram)

Blaine, Wash., Oct. 22.—Two men were killed and one was wounded today in a battle between a posse composed of Canadian and American deputy sheriffs, customs officers and immigration inspectors, and five outlaws supposed to have robbed the First National bank of Sedro, Waller, Wash., of \$20,000 last Saturday when they killed a boy while firing at citizens on the street.

The dead: Cliff Adams, Canadian customs inspector. Unidentified bandit.

Wounded: James Smith, Canadian customs inspector. Hand shattered.

The slain bandit was apparently a foreigner. He carried in a belt \$2,500 in gold coin.

The other four robbers are surrounded in the woods at Hazelmead, B. C., close to the border.

Ladies! Try this: Darkens beautifully and nobody can tell—Brings back its gloss and thickness.

Common garden sage brewed into a heavy tea, with saphire and alcohol added will turn gray, streaked and faded hair, beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair.

Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome.

An easier way is to get the ready-to-use tonic, coating about 50

teaspoonfuls a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of mussing.

While wispy gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness.

By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with

water and draw this through your hair,

taking one small strand at a time;

by morning all gray hairs have disappeared.

After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

NERV-WORTH FOR 68-YEAR-OLD MAN

"Remedy Does All You Claim for It," Says Man Who Has Made the Test.

John Kall of No. 121 Broadway, Canton, O., is another fortunate who has received extraordinary benefits through Nerv-Worth, and he hastens to tell his fellow sufferers about it in the following words:

"I am 68 years old and have been the miserable victim of nervous trouble and a weak back. Besides this I had heart trouble, my appetite was no good and I never got hungry. And that was not all, for my left hand was so shaky I could not lift a saucer to my mouth with it when eating. This was a great hardship, for my right hand is crippled. But thanks to Nerv-Worth, after using it but one short week I am on the road to health and comfort. I am satisfied this medicine will do all you claim for it. I am already beginning to feel its great benefits."

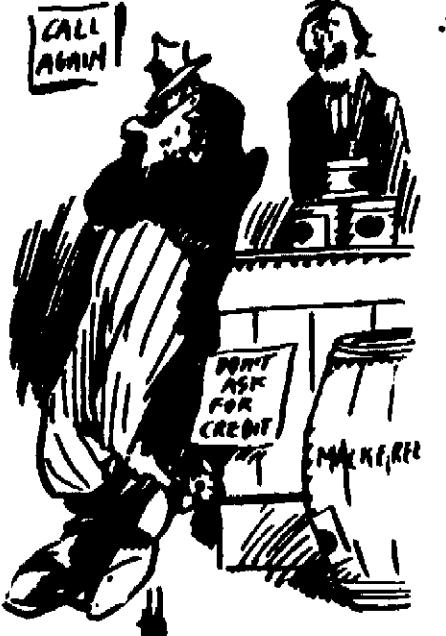

Mr. Kall is right. Nerv-Worth will do all its makers claim for it and that is: It will overcome nervousness, dizziness, sleeplessness, cold feet, pains in the chest, back, head or side, sick and nervous headaches, indigestion, palpitation of the heart, weakness and weariness and a run-down condition in general.

FOUND LITTLE INTEREST IN MOTOR RACES

Some thousand or more people found but little of interest in the motor races at Mountbuilders Park, Wednesday afternoon. There were but six cars on the track, evenly divided as to class. Three of the small cars, the Hess Ford special and the Ford, owned by C. D. Lake of Mt. Vernon, and another car of the same class, driven by Yowell, made the events for these cars somewhat interesting.

The Knox Thunderbolt, the Mercer, and the Buick, were the three cars of the larger class, but the Mercer had it over all the others, though the Thunderbolt had little chance to show its worth, being eliminated on the fifth of the first event in which it participated.

Luscher, in the Mercer, excelled in driving and his car worked perfectly. He had no trouble in passing other cars in the events with him.

The first event was a five-mile race for the small cars, Lake's Ford, from Mt. Vernon, getting away to a good start and keeping the lead all the way around. He made the five miles in 6 minutes and 43 seconds.

In the five-mile event for large cars, the Buick, Knox and Mercer were entered. It was a pretty race for half the distance, but Parcell, in the Knox, was compelled to stop to extinguish a fire in his exhaust. Before this was accomplished, leaves on the track took fire and the blaze was communicated to the carburetor and for a time there was a bit of excitement until someone brought an extinguisher that did the business. The car was disabled for further racing.

Luscher's Mercer and Gray's Buick continued the race which was won by Luscher in 6 minutes and 29 seconds.

In the three-mile handicap race, five cars participated. The three Fords were given a handicap, Baker, driving the Hess car, getting away in the lead. He kept ahead of the squadron for the six laps and won handily, though the Mercer was giving him a close run, having passed the other three cars.

Baker's time for the three miles was 4 minutes and 5 seconds.

In the five-mile relay race Lake and Baker started first, Lake giving way to Parcell at the end of three miles, and Baker giving way to Luscher. Lake won the first three miles in 3 minutes and 22 seconds, giving Parcell the advantage of the start over Luscher. The latter overhauled Parcell on the fourth lap of the second three miles and won the event in 6 minutes and 52 seconds. Luscher's three miles were made in 3 minutes and 29 seconds.

In the ten-mile handicap Luscher passed the field before the race was half concluded and the three smaller cars withdrew, leaving the race between Luscher's Mercer and Parcell's Buick. Luscher won in 12 minutes and 25 seconds.

The Australian pursuit race proved to be a windup, Parcell and Luscher being the only entries. On the third lap, Parcell blew a tire as he rounded into the stretch and the race ended.

Fullington's Dream.

Governor Cox recently said that the fight against the Warnes law is identical with that waged against the Smith one per cent law and is being led by the same person, former State Auditor E. M. Fullington.

It will be remembered that Mr. Fullington was deputy state Auditor under Gilbert the third term, and then elected one term himself but was overwhelmingly defeated by about 100,000 votes for his second term, and as time goes on people are more highly pleased with his defeat.

Those were days when Gilbert in the Auditor's office and McKinnon and Cameron in the state Treasurer's office were disgracing Ohio with their system of handling the people's money.

Not single Republican Attorney General raised his hand in behalf of the people's interest but complacently watched the proceedings. But Attorney General Hogan has already collected by law \$132,000 from different banks which profited by these unlawful dealings.

Mr. Fullington is now managing the Republican campaign along certain lines in Ohio today and is dreaming of the time when Willis, himself, and their allies will again be enthroned.

Including what Mr. Hogan has collected by civil law, \$1,250,000 has been returned since the Gilbert-Cameron days. Let Fullington dream in vain and may the good work of Harmon and Cox continue.

Interesting Figures.

The Ohio Light and Power Company's advertisement in Wednesday's Advocate told an interesting story and recited facts that were surprising to many people. Of 1,000 customers of this company 303 paid 50 to 60 cents for electricity in September, 75 paid 60 to 70 cents, 51 paid 70 to 80 cents, 57 from 80 to 90 cents, 83 from 90 cents to \$1.56 paid less than \$1.25, 101 less than \$1.50 and

10 cents for electricity in September.

Taft and Willis.

What striking difference in the estimates of Woodrow Wilson by ex-President Taft and candidate Frank B. Willis. Mr. Willis attempts to belittle the great president of the United States by characterizing his acts as "puerile and pusillanimous" while on the other hand ex-president Taft in his address to the American Bar Association at Washington on Tuesday expressed these words:

"We are profoundly grateful for the splendid isolation and freedom from entangling alliances" enjoined by Washington. He praised President Wilson's jealous preservation of the attitude of neutrality, lauded the Bryan peace treaties, endorsed the trade commission and Clayton acts, praised the inter-state commerce employers liability act for abolishing the fellow-servant rule, and upheld the pending compensation.

Including what Mr. Hogan has collected by civil law, \$1,250,000 has been returned since the Gilbert-Cameron days. Let Fullington dream in vain and may the good work of Harmon and Cox continue.

Stop and Think.

We are now to have a temporary and comparatively small war tax as a result of the conflagration in Europe for which of course no one in America is in the least responsible, but stop an instant and think what the American war tax would have been if President Wilson had listened to his critics and allowed the United States to be plunged into war with Mexico.

"War in the East, peace in the West, thank God for Wilson!" The way to show appreciation of the notable achievements of Woodrow Wilson is to vote the Democratic congressional and state ticket. A vote for Willis is a slap at Wilson.

Lesson In Kindergarten Mathematics With a Local Application

Teacher: Children, what is the amount of the Tax Duplicate in Licking county in 1914?

Children: \$89,423,870.

Teacher: Children, how much less than last year do the taxpayers of Licking county pay to the State levy in 1914?

Children: .511 mills.

Teacher: Children, can you tell me how much the taxpayers of Licking county saved by this reduction of .511 mills?

Children: Yes, teacher, \$89,423,870 multiplied by .511 mills equals \$45,695.

Teacher: Children, how much was the County levy reduced in 1914?

Children: .339 mills.

Teacher: Children, can you tell me how much the taxpayers of Licking county saved by this reduction of .339 mills?

Children: Yes, teacher, \$89,423,870 multiplied by .339 mills, which equals \$30,314.

Teacher: Children, can you tell me the total saving to the taxpayers of Licking county?

Children: Yes, teacher, add \$45,695 and \$30,314 which equals \$76,009.

Teacher: Now, children, can you tell me how the State levy was reduced .511 mills and the County levy .339 mills?

Children: Yes, yes, teacher, by adding to the grand duplicate of the State one billion dollars, and to the Licking county duplicate nearly four million dollars in the year 1914.

Teacher: Children, whose property furnished these big additions to the tax duplicate for the year 1914?

Children: The tax dodgers of Ohio, teacher.

Teacher: Children, what did it cost the honest taxpayers to save \$76,009 in 1914?

Children: Not one cent.

Teacher: Now, children, make this plain as some of the "flunkies" among the older pupils can't figure.

Children: Multiply \$2,091,050 of tax dodgers' property by 8.17 mills, the average tax rate of Licking county, equals \$17,083.

Teacher: Can you tell me the cost of appraising Licking county for the year 1914, including the salaries of the District Assessor, Members of the Board of Complaints, Assessors, Clerks and office supplies?

Children: Yes, \$13,000.

Teacher: Now explain why it did not cost the honest taxpayer one cent for the 1914 appraisement.

Children: From \$17,083 tax dodgers' money, subtract \$13,000, cost of appraisement, leaves \$4,083 of tax dodgers' money to apply on next year's appraisement.

Teacher: What made the big tax dodgers of Ohio "come across" in the year 1914?

Children: The big 16-inch siege guns in the Warnes law.

Teacher: Quite right children. Some of the older pupils ought to be in your class.

The tax rate in 68 of the 78 taxing districts of Licking county has been reduced as a result of the Warnes law. Though the rate is the same, or in a few instances higher, in 10 of the 78 districts, the Warnes law has been of great value even there as well as in the 68 districts which enjoy a lower tax rate for it had not been for the reduction of the state and county levy this year the tax rate in those ten districts would necessarily have been higher than it is now. The Newark rate for example was 12

Society

Clusters of roses placed in willow baskets adorned the table at the dinner given on Wednesday evening by Miss Anne Sprague at her home in Locust street, when she entertained the members of the bridal party. The appointments were delightful and the following were guests: Miss Bertha Latimer, Miss Annette Beuden, Miss Helen Daniels of Philadelphia, Messrs. George Upson, Howard Upson, Walter Brown and James Adair of Xenia.

The wedding of Miss Anne Sprague, daughter of Mr. and Mrs. George Sprague of Locust street, and Mr. George D. Upson will take place at 8 o'clock this evening at the Trinity Episcopal church, Rev. L. P. Franklin officiating. The bride will be attended by her maid-of-honor, Miss Bertha Latimer, while the maids are Miss Annette Beuden and Miss Helen Daniels of Philadelphia. Mr. Howard Upson will be his brother's best man, while the ushers are Walter Brown and James Adair of Xenia.

Mrs. Kemper Scott will be the Tuesday Bridge club's hostess for next week.

The Daughters of Trinity will meet on Tuesday afternoon with Mrs. Edward Thomas, 116 North Fifth street. A full attendance of members is desired and anyone desiring to enter this society will be cordially welcomed.

Mrs. P. H. Conner and Miss Faye Young are in Columbus today in attendance at the wedding of Miss Mary Isabella Lane and Mr. Arthur Stanley Thompson. Miss Lane formerly resided in Pearl street, this city.

Mrs. William Gallagher entertained at her home in Hudson avenue on Tuesday evening with a miscellaneous shower for Miss Emily Wells, whose marriage to Mr. Lawrence Schaller took place today. Delightful were the appointments at the dinner and the honor guest received a number of beautiful gifts.

The Isleta club met at the home of Mrs. W. H. Conley in North Sixth street on Tuesday afternoon. The time was devoted to needlework and an election of officers was held which resulted in the following being named:

President—Mrs. Guy Huffman.

Secretary—Mrs. W. H. Conley.

Treasurer—Mrs. J. S. Newcomer.

Corresponding Secretary—Mrs. W. L. Jackson.

A dainty luncheon was served the following members: Mesdames Fred Galloway, M. J. Downey, W. L. Jackson, E. S. Woodward, N. E. Vanatta, J. W. Newcomer, Guy Huffman.

The next meeting will be at the home of Mrs. Guy Huffman.

Mrs. James Copeland is entertaining this afternoon at her home in East Main street with a towel shower in honor of Mrs. Carl Jones (Verna Hard- ing).

SCHALLER—WELLS.

At 8 o'clock Thursday morning was solemnized the marriage of Miss Emily Wells and Mr. Lawrence Schaller, the ceremony taking place in St. Francis de Sales church.

Preceding the ceremony, Miss Carrie Brennan, organist, played the wedding march. Rev. Father Ruane, assistant pastor, read the marriage service. The bride was attended by Miss Mary Prior, while the groom's best man was Mr. James Wells. The bride wore a tailored coat suit of blue cloth and a hat of the same shade of blue. Her bouquet was a corsage arrangement of white roses. The bridesmaid wore a jacket suit of green crepe poplin and a hat of green velvet. Her flowers were a corsage bouquet of pink and white chrysanthemums.

Following the ceremony, a wedding breakfast was served at the bride's home in Bowers avenue, the appointments being in pink and white and the table was centered with a basket of pink and white chrysanthemums. Mr. and Mrs. Schaller went at once to their new home in Hudson avenue. The bride is the daughter of Mr. and Mrs. J. W. Wells of Bowers avenue, while the groom is the son of Mr. and Mrs. William Schaller of South Sixth street. He is employed as machine-operator at the Gem theatre.

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act free. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

In Common Pleas.

In Common Pleas court on Thursday the court and a jury were engaged in the trial of the case of Edward W. Allen vs. Wm. Linke (Fred W. Sperry, substituted defendant). The plaintiff, Allen, seeks to replevin certain chattel property and a stock of groceries which were in a store at Utica in 1910. Certain goods in the store were replevined which were levied upon by Mr. Sperry upon an execution. It is the claim of the defendant that the property replevined belongs to one B. J. Smith, and that the levy made by the Sheriff should be held by the court to be valid, and in favor of Sperry.

Divorce Granted.

Probate Judge Hunter Thursday granted a divorce to James D. Johnson. The parties were married June 29, 1893. The divorce was granted on the grounds of abandonment.

Alimony Allowed.

In the divorce petition of Edith Wood vs. Harry Wood, the plaintiff has been granted temporary alimony fees of \$15 and attorney fees of \$20, to be paid immediately.

MRS. BEIDEL TELLS WOMEN

How Lydia E. Pinkham's Vegetable Compound Kept Her in Health for 14 Years.

Shipensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble very badly and I used Lydia E. Pinkham's Vegetable Compound and in a short time was cured and have been in excellent health since. I always praise the Compound whenever I have an opportunity as I know it helped me and will help others. Late I have given the Compound to my daughter and I wish all suffering women would take it and be convinced of its worth."—Mrs. JAMES A. BEIDEL, 113 N. Penn Street, Shippensburg, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to hold the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove the fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

STEEL CASE

ARGUMENTS IN DEFENSE OF CORPORATION RESUMED IN PHILADELPHIA TODAY

Attorney Attempts to Show that Employees were Benefitted by Wage Advance.

Philadelphia, Oct. 22.—Resuming his argument for the defense today in the federal suit to dissolve the United States Steel Corporation on the ground that it violates the anti-trust law, Richard V. Lindabury in the United States district court continued to describe the conduct of the corporation after its organization. At the outset, he denied that the earnings of the corporation were excessive but declared that on the contrary they were quite ordinary.

To show that the corporation has always played fair, counsel told the court that the record in the case does not show a single instance of rebates having been asked or received by the concern or by any of its subsidiaries. In 1905, he said, the finance committee fearing that some of its subordinates might resort to rebates, sent a letter to the presidents of most of the railroads with which the corporation did a transportation business, warning them against the giving of rebates to any representatives of corporations.

The corporation has not attempted to coerce consumers or dealers into trading with it exclusively, he asserted, nor has it otherwise restricted their freedom of action. "If there ever was a record of clean doing and honorable business methods, we have it here," said counsel.

Speaking of the corporation's treatment of its employees, Mr. Lindabury gave figures to show that since the formation of the corporation the wages of its employees have been increased an average of 2800 per cent.

Counsel for the steel corporation denounced as false the government charge that Mr. Gary and Mr. Frick had deceived President Roosevelt as to the amount of Tennessee stock held by Moore and Schley.

"There is no foundation for the charge," Mr. Lindabury added, "and it should not have been brought in this case."

"The four judges sitting in the case were greatly interested in the details of the stock held by Moore and Schley and sold to the steel corporation.

GREECE WILL BE NEUTRAL UNLESS BULGARIA JOIN

ASSOCIATED PRESS TELEGRAM
Washington, Oct. 22—Participation of Greece in the European war depends upon the future action of the now peaceful Balkan states, according to Greek minister Mr. Schliemann today.

"Greece is not mobilized," said the minister, "and is maintaining only a frontier guard composed of the regular standing army. Unless the status quo in the Balkans is changed by the entrance of another state into the war, we will remain at peace."

An offensive and defensive alliance with Servia makes it incumbent upon the Hellenic government to take up arms if Bulgaria's ancient hatred waxes to the point where she would march against Servia, the minister stated, or if Turkey, whose interests are allied with the former country, began hostilities.

When questioned as to the Turco-Greek relations Minister Schliemann was reticent but expressed doubts that the porte had escorted the Patriarch of the Greek church to the border. The Patriarch and the Sultan have a old feud which serves to keep them apart.

Minister Schliemann said that he did not expect his country would have to join in the conflict and stated it had so far taken no belligerent attitude.

ASSOCIATED PRESS TELEGRAM
London, Oct. 22—The correspondent of the Times at Boulogne, under date of Wednesday, describes the desperate fighting of the past week in which the Germans have been driven back from village to village to the outskirts of Lille. He says:

"The destruction has been terrible. Some of the villages have been sheltered by both the allies and Germans and many non-combatants have been killed. A whole family was found dead in one house. In one of the villages 500 dead Germans were found after the fighting. The cartridges in their possession, it was noted, were of the old Snider type with a large lead bullet."

"HEREAFTER"

Misrepresentation and deceit mark the campaign tactics of those who are supporting Home Rule.

The people of Ohio have been deluged by the Prohibitionists with literature and oratory based on a garbled copy of the Home Rule Amendment.

Wilful deception has never been known to win when the voters are informed.

The voters resent such a slap at their intelligence.

Caught in misrepresentation, can those responsible for it be believed on the issues of this campaign?

Here is the true text of the Home Rule Amendment petitioned for by 304,062 voters of Ohio, placed beside the garbled copy circulated by the Prohibitionists.

The Evidence

The True Text of Proposed Constitutional Amendment Initiated by the Ohio Home Rule Association to be Voted on Nov. 3, 1914:

Article XV, Section 9a—No law shall be passed or be in effect prohibiting the sale, furnishing or giving away of intoxicating liquors operative in a subdivision of the state upon the option of the electors thereof, or upon any other contingency which has force within a territory larger than a municipal corporation or a township outside of municipal corporations therein. All laws in contravention of the foregoing are hereby repealed.

No shall any law **HEREAFTER** be passed prohibiting the sale, furnishing or giving away of intoxicating liquors throughout the state at large.

Note carefully the word "**HEREAFTER**" underscored in the true copy of the amendment. The petitions carrying this amendment were circulated in all the counties of Ohio during the entire month of July, and have been on file in the Secretary of State's office since August 4, and there can be no excuse offered by the Prohibitionists that they could not secure a true copy of the amendment.

Garbled Copy of Proposed Constitutional Amendment sent out by Prohibitionists to the Public and Submitted to Lawyers on Which to base Opinions:

Article XV, Section 9a—No law shall be passed or be in effect prohibiting the sale, furnishing or giving away of intoxicating liquors OPERATING (1) in a subdivision of the state upon A VOTE (2) of the electors thereof (3) or upon any other contingency (4) which has force, (5) within (6) territory larger than a municipal corporation or (7) township outside of municipal corporations therein.

(8) All laws in contravention of the foregoing are hereby repealed. Nor shall any law (9) be passed prohibiting the sale, furnishing or giving away of intoxicating liquors throughout the state at large.

- (1) "Operating" should be "operative."
- (2) Should be "the option."
- (3) Comma omitted.
- (4) Comma omitted.
- (5) Comma inserted.
- (6) "a" omitted.
- (7) "a" omitted.
- (8) This sentence should be part of the first paragraph, not of the second.
- (9) Word "HEREAFTER" omitted.

"Hereafter"

The word **HEREAFTER** shows that no present prohibitory or regulatory law could possibly come within the provisions of the Home Rule Amendment. The only law now on the statute books which is affected by the Home Rule Amendment is the so-called "County Option Law"; and that is specifically repealed by the second sentence of the amendment.

During the campaign for license which the people approved by a tremendous majority, the Prohibitionists made the same misleading claims. They pretended that license would repeal all local option and regulatory laws.

No less than eight other alterations are found in the garbled copy of the Amendment circulated by the prohibitionists.

Why They Did It

The true copy reads:

"Nor shall any law **HEREAFTER** be passed," etc.

The false copy reads:

"Nor shall any law be passed," etc.

What is the difference, you ask?

Simply this, that when Prohibitionists tell you that the Home Rule Amendment affects or repeals present regulatory laws (laws relating to sales to minors, sales to drunks, sales on Sundays, sales on election days, etc.) that little word **HEREAFTER**, which they have omitted, conclusively contradicts their assertion.

Ions based upon the butchered amendment.

The third was to divert the attention of the people from the devastating and calamitous effects of state-wide prohibition.

What the Home Rule Amendment Means

The sole purposes of the Home Rule Amendment are to make the municipal corporation and the township the largest units in local option elections, retaining the present municipal, township and residence district local option laws; to repeal the Rose County Option law; and to prevent State-wide Prohibition except upon a vote of the people. The amendment has nothing whatever to do with the sales to minors law, the Sunday law, or any other regulatory law.

That no other meaning can be forced into this amendment is the unanimous conclusion, expressed in the most positive terms by the following eminent lawyers:

ATTORNEY GENERAL HOGAN,
JUDSON HARMON,
WILLIAM L. DAY,
WADE H. ELLIS,

JOHN A. McMAHON,
LAWRENCE MAXWELL,
GEORGE B. OKET,
JAMES E. CAMPBELL.

The Prohibitionists know they have practiced this misrepresentation and deceit. Attention has been repeatedly called to it, but they still persist in the efforts to fool you. It is up to you, Mr. Voter, to resent these attempts to mislead you.

SOME OF THE POOR.

So many have no roofs or doors, no sheets to cuddle under! You hire some men to do your chores, and then you cease to wonder. Alas, it is so hard to find—he takes so much pursuing—that he worker who will keep his mind on what he may be doing. I hire a man to saw some sticks, to keep the fire a-going, and he discusses politics, in language smooth and flowing, the saw grows rusty while he stands, the woman shrinks and totters, as he, with swinging jaws and hands, denounces Wall Street plotters. When I go home, as dusk grows dense, I hear his windy rakes, and kick him sadly through the fence, when I have paid his wages. I hire a man to paint the churn and hoe the morning glories, and when at evening I return, he's busy telling stories. That toiler is no good, I fear, remarks the hausfrau, Sallie. I take him gently by the ear and lead him to the alley. I hire a man the stove to black, and fix the kitchen table and when at evening I come back, he's sleeping in the stable. And thus we suffer and endure the triflers vain endeavor; we do not wonder that the poor are with us here forever.

There is more misery in this section of the country, at all times, than in any other part of the country, and therefore it is supposed to be incurable.

For a great many years doctors pronounced it a local disease and pronounced it incurable, and by consequence nothing was done with regard to treatment.

But now, with the development of medical knowledge, there is hope.

GIRLS! LOTS OF BEAUTIFUL HAIR NO DANDRUFF--25 CENT DANDERINE

Within ten minutes after an appli-
cation of Danderine you cannot find a
single trace of dandruff or falling hair
and your scalp will not itch, but what
will please you most will be after a
few weeks' use, when you see new
hair, fine and downy at first—yes—but
really new hair—growing all over
the scalp.

A little Danderine immediately
doubles the beauty of your hair. No
difference how dull, faded, brittle and
scrappy, just moisten a cloth with
Danderine and carefully draw it

through your hair, using one small
strand at a time. The effect is smart-
ing—your hair will be light, fluffy and
wavy, and have an appearance of
abundance; an incomparable lustre,
softness and luxuriance.

Got a 25 cent bottle of Knowlton's
Danderine from any drug store or
toilet counter, and prove that your hair
is as pretty and soft as any—that it
has been neglected or injured by care-
less treatment—that's all you surely
can have beautiful hair and lots of it
if you will just try a little Danderine.

Accidents will happen, but that is
poor consolation for the girl with a
broken heart.

OLD VIRGINIA FUGITIVE HELD IN CUSTODY HERE

W. C. Hobuck, arrested here May 28
on a charge of stealing a gas engine
and motorboat worth \$250, and who
escaped while being taken back to
Richmond, was picked up again Wednes-
day night by Officers Stewart and
Donley and is being held on an affit-
avit charging him with being a fugi-
tive from justice.

When last arrested, Hobuck was
turned over to Detective Warnock,
enroute back to Richmond, Warnock
and his prisoner spent the night in
Bluefield, where Hobuck was placed in
jail. The following morning while
the jail prisoners were being served
with breakfast, Hobuck made a dash
for liberty and succeeded in making
his escape.

A few days later Police Chief Sheri-
dan received a card from Hobuck from
a Canadian town. On this card Hob-
uck wrote: "Pull the cops off my
trail. I'm here to stay."

Wednesday night Officers Stewart
and Donley recognized Hobuck on the
street and placed him under arrest.
He denied that he was still wanted,
claiming that the incident against him
had been nolled. A telegram, how-
ever, from Police Chief Louis Werner
of Richmond, informed the local of-
ficials that an officer was now enroute
to Newark to take charge of the pris-
oner.

SUEZ CANAL MAY NOT BE USED BY ENGLAND'S ENEMY

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 22.—Through the
official press bureau the government
sets forth its attitude towards the
ships of an enemy in the Suez canal.
Some vessels it states were detained
by the Egyptian government because
of hostile acts committed in the can-
al, and some because it was believed
that they contemplated hostile
acts. In a third class are placed the
ships which refused to leave, though
free passage was offered, "thus dis-
closing an intention to use the ports
of the canal as a refuge—a measure
not contemplated by the Suez canal
convention."

As such action might block the use
of the canal by other ships it is com-
mended that "the Egyptian govern-
ment is fully justified in removing
all the enemy's ships which have been
long enough at canal ports to show
clearly that they have no intention
of departing in the ordinary way."

Hunters are Careless.

Several children have had narrow
escapes from being shot by persons
hunting near Broad street between
Sixteenth and Church streets and
their recklessness in handling their
firearms has also resulted in the
shooting of a number of chickens.
Residents have complained to police
headquarters and strict action may
be taken if the practice is not discontinued.

Visits Newark Relatives.

Edwin F. Stewart, secretary-treas-
urer of the E. H. Everett Oil com-
pany, with headquarters in Shreve-
port, La., arrived in Newark Wednes-
day night and surprised his brothers
and sisters residing here. Mr. Stew-
art has been traveling through the
oil territory in Oklahoma and other
southwestern states. He was for sev-
eral years an accountant in the offi-
ces of the American Bottle company
here.

Locomotive Engineers Spent Happy Day In Celebrating Division's Golden Jubilee

The Brotherhood of Locomotive Engineers, Division No. 36, celebrated its fiftieth anniversary Wednesday by entertaining in a splendid manner the members of 36, and a number of guests from other divisions, at a public meeting in the afternoon at the High School auditorium, and a banquet in the evening which was followed by a ball at Assembly Hall.

Visiting members began arriving Wednesday morning. In fact quite a few came the day before. Engineers who were in the service many years ago, when railroading was in its infancy, came to greet old friends and exchange tales of the times when driving the iron monsters was a more hazardous business than it is today. Visitors came from St. Louis, Cincinnati, Indianapolis, Cleveland, Pittsburgh, Columbus, Wheeling and Bensenville, and there were many women among the number for the Grand International Auxiliary had a pressing invitation to meet with their fathers, husbands and sweethearts.

The afternoon meeting was called to order at 2 o'clock by James Denison, foreman of engines of the B.

& O., and he presided throughout the rendition of the program, the first number of which was a selection by a male quartette composed of Messrs. Ferguson, McDonald, Marshall and Cosway. Mayor R. C. Bigbee was next introduced and welcomed the visitors to the city in a very neat and appropriate manner, extending to them the freedom of the city.

Mrs. C. W. Miller then rendered a beautiful solo, receiving a hearty encore as did all the song numbers of the afternoon.

Chairman Denison gave a short history of the founding of the B.

L. E. and related many facts and anecdotes of early railroading.

"Jim" proved to be quite an orator, and surprised his many friends by his platform ability, being as he expressed it, "right at home" when talking to the old boys who handled the throttle. Mr. Denison produced the first minute book used when the local branch was organized in Columbus in 1864, meeting there weekly until May 1866, when withdrawal cards were issued to Chillicothe. In May, 1871, Zanesville was selected as headquarters and a few years later it was transferred to this city. Mr. Denison read extracts from the old book which were greatly enjoyed and brought back fond memories and pleasant associations to many of those present.

Mrs. C. W. Miller then rendered a beautiful solo, receiving a hearty encore as did all the song numbers of the afternoon.

Chairman Denison gave a short history of the founding of the B.

L. E. and related many facts and anecdotes of early railroading.

"Jim" proved to be quite an orator, and surprised his many friends by his platform ability, being as he expressed it, "right at home" when talking to the old boys who handled the throttle. Mr. Denison produced the first minute book used when the local branch was organized in Columbus in 1864, meeting there weekly until May 1866, when withdrawal cards were issued to Chillicothe. In May, 1871, Zanesville was selected as headquarters and a few years later it was transferred to this city. Mr. Denison read extracts from the old book which were greatly enjoyed and brought back fond memories and pleasant associations to many of those present.

"There are many members here today," said Mr. Denison, "who have been members of the Brotherhood for over forty years, and we are pleased to have them with us, for they were the pioneers who blazed the way." He next paid the women of the auxiliary a number of compliments and brought down the house, that is the feminine part of it, when he said he was for the women every time and that after the third day of November he predicted they would have a voice in state affairs and in time national as well. Mr. Denison concluded by giving every one an invitation to visit the hospitalities of the Newark branch, and enjoy themselves to the full extent.

After another number by the male quartette, First Grand Engineer W. B. Prenter of Cleveland, was introduced and said that he was glad to be with "the boys" if for no other reason than just to hear Mr. Denison make a speech. Mr. Prenter then gave a short talk relating to the organization and work of the members and complimented the First Grand.

is a great favorite with the boys of the throat and they are always glad to have him with them.

Mrs. C. W. Miller followed with another pretty number as an encore, after which George Sturmer, special

representative of the General Manager of the B. & O. system, and a former member of the local division, gave a pleasing talk to his old comrades. He was followed by W. A. Rickert, whose talk along the lines of the order was one of the enjoyable features of the program.

The male quartette then brought down the house with their song number, "Sing," in which Atty. B. F. McDonald led the different verses. A pleasing number followed as an encore. Mrs. Cassell of Cleveland was next introduced and in a pleasing manner told of the work of the auxiliary and the part the ladies have taken in "trainreading." A song by the quartet brought the program to a close.

Mrs. John H. Franklin presided throughout at the piano and her interpretation of the different song numbers was delightful.

BANQUET GIVEN, AND GRAND BALL CLOSED FESTIVITIES.

At the close of the afternoon meeting, the members of the organization went to the First M. E. church, where in the large dining hall the banquet was served. The tables were placed the length of the room, and were adorned with great clusters of yellow chrysanthemums, significant of the golden anniversary of the organization. The officers' tables were in the center of the room and large cake, feed in yellow and bearing 50 yellow miniature candles formed the centerpiece.

The ladies of the auxiliary served the banquet and over 400 diners were taken care of. The menu was a delicious one of three courses and following the dinner Mr. W. B. Prenter, First Grand Engineer of Cleveland, gave a short talk thanking all for the entertainment afforded and especially he complimented the women, to whom he said was due the success of any undertaking in which they participated.

The souvenirs at the banquet were folders in white and gold bearing the dates 1864-1914 and the picture of an antique engine and the up to date one.

At the conclusion of the banquet all went to Assembly Hall where an informal reception was held and a ball was given. During the evening a grand march with the officers in the lead was held.

Order was called and Mrs. Robe on behalf of the G. I. A. presented the B. of L. E. with the original charter of Division 36, which they had had framed. Mrs. Robe also presented the brotherhood with a beautiful clock. Mr. L. Casta, chief of division 36 responded on behalf of the brotherhood.

Dancing continued until midnight closing one of the largest and most successful meetings ever held by Division 36.

The address of the officers was called and Mrs. Robe also presented the B. of L. E. with the original charter of Division 36.

Mayor Bigbee's Statement.

Editor Advocate:—In your last evening's paper, there is an article in which you say that "Newark automobile owners, and particularly physicians," will make an effort to secure the repeal of an ordinance recently passed, prohibiting the use of headlights on automobiles.

Permit me to say that there is not now or has there ever been any such ordinance drawn or in force, in this city, and it is safe to predict that no such foolish thing will ever be attempted; on the contrary it has been quite a task to get some people to keep their headlights and tail lights burning, as the statutes direct.

The statement that a local physician was ordered to appear before the mayor on charge of having his lights burning, is wholly and totally false, whereas the fact is, that there was a local physician ordered before the mayor, for a violation of ordinance No. 2390, "prohibiting the use of dazzling headlights," to this charge the aforesaid local physician pleaded guilty, and was fined.

Again your informant says "in West Newark an automobile crashed into a buggy Tuesday night." *

* It was impossible for the driver to see the rig, because his lights were not burning." In this case the driver merited a fine according to the statutes of not more than \$25.

Again, he says, "A few weeks ago police officers were ordering lights extinguished in spite of the fact To this I say that it is a strange thing that an officer would go about the city giving such orders, when he has put in the entire summer season compelling automobile drivers to have their lights burning, according to law, and I am free to say that I believe no such orders have ever been given by an officer in the employ of the city.

I wish to be understood as not casting any blame on the newspaper publishing the above complaint. I do, however, criticize the Ananias who made such a bunch of misstatements.
